

BST04

CYBERSECURITY STUDENT AND DEVELOPER

About Me

I'm a 17-year-old IT student from Spain, passionate about the cyber world and pursuing the Pentesting Path. Also, I'm actively building and sharing Cybersources within the Cyber Community.

Projects

I'm focused on creating custom payloads for Flipper Zero and Rubber Ducky (Hak5), while continuously updating and expanding Cybersources and AISources to share with the community.
